Big Brother the bank did not see the transfer. You paid on Thursday, March 14th. Today is Monday March 18th. The money should already be in my account, but it is not.
King I gave you two very expensive watches on your word of honor (Mile \$342,600 and Audemar Piquet \$365,000). Got a great discount.
Gave your mom a Rolex as a gift for \$23,000.
I just don't understand what's going on? Also, another watch you ordered is arriving today.
And what to do next?

Wow

So now you don't trust me

I told u if its an issue on my end

Hey I start worrying about the whole thing

The watch you're having now and still not paid for belongs to a big client of mine and a big celeb
@pugachevmark

He doesn't like the situation and he knows you haven't paid yet and he's devastated because it's been 10 days. He's my boy and a respected man . We need to resolve this asap before it turns ugly

Brother u never said nothing about him till now

So come on bro

I understand though

Let's handle these first then we'll move on

Why I need to disclose it I don't see

I understand though

Let's handle these first then we'll
move on

Why I need to disclose it I don't see
a reason why
It's confidential and I carry many
watches of my good clients
But it's getting out of hand never
dealt with anything like this
He's been asking for his watches or
money I not going to lie about it so I
told him what's going on
You have many people in common
and he lives in miami I don't want
this to be a problem

Brother again you told me these was
your watches and I have proof of
that... no one was including in this
deal.. I even offered to let u speak to
my bank or go in there with me, but
instead u said you trust me so it
wasn't needed

U have my biz manager Ryan
number tomorrow we clear it all up

Now that we are this way I'll
get on it first thing in the morning

brother

I never said it was mine
We had the contract with him it's
like a consignment for a car /
house . None of that information
should be disclosed
I'm a retailer and whole seller not
100% of inventory belongs to me
He holds the docs for Richard Mille
and the second set of cards for the
AP
I don't want any issues reports any
all of that . Have to solve it asap
watches back AP and Mille or
money . No bs . Otherwise it will get
really ugly man ...

Brother how are you coming at me
like this I have your messages u said
it was no pressure

So relax brother this will get handled

This is the deal
You need to return the watches
today by the end of the day .
Or tomorrow morning Mark and I will
file several police reports, he's got
connection with feds too. Also he'll
make it big in his IG and news. He's
not going to let it go
He warned you yesterday

20 MAPTA, 12:11

You handle it simple today by 6pm
you meet with him and you return
the owner Richard Mille and AP
watches
Stop dreaming that he'll let it go .
I'm flying down to Mia tonight
If he doesn't get the watches back
by this evening
Tomorrow it will be a different
situation with cops , feds and media
involved he'll make it huge
He's got all ownership proofs and
the conversations . This time for
600.000 jewelry grand theft won't
be looking good for you with with all
his connections

27 МАРТА, 17:10

So I just spoke to mark im stepping out of this . It's his watch and his property i tried to calm him down but didn't work . He doesn't want me to deal with you anymore. All further communication contact him directly via IG you already spoke to him. The whole thing is really fucked up and not right. He's beyond devastated and he's the one who'll handle it from now on. So talk to him . He exclusively wants to handle it through cops and Feds
He gave you an opportunity to return his watch few times but you didn't . Now I'm in the middle and I already ducked the relationship with him because you're dishonest and provided fake receipt of the wire
